Consulting

Our experience, your success!

EDITEL is your experienced partner for the implementation of EDI projects. You will for example benefit from the EDITEL Partner Management, especially when working with large-scale EDI projects. This option will allow you to connect your business partners to your EDI infrastructure swiftly and efficiently without having to allocate internal resources. During this onboarding process, EDITEL will take care of all tasks for you, from the very first contact all the way to the go-live. In addition, EDITEL is also happy to assist you with any other EDI needs.

EDITEL offers support in the following areas:

› Community management
› Certificate management
› Partner management / onboarding of new EDI partners
› Creation of message implementation guidelines (MIGs)
› Data format verification
› Process optimization

Your benefits

› Time- and resource-saving EDI implementation

› 40 years' experience in EDI projects

› Swift and time-efficient connection with your partners

› Professional assistance and support
